ISM 201 Incident Briefing

Purpose. The Incident Briefing (ISM 201) provides the EOC Director (and the Command and General Staffs) with basic information regarding the incident situation and the resources allocated to the incident. In addition to a briefing document, the ISM 201 also serves as an initial action worksheet. It serves as a permanent record of the initial response to the incident.

Preparation. The briefing form is prepared by the EOC Director for presentation to the incoming EOC Director along with a more detailed oral briefing.

Distribution. Ideally, the ISM 201 is duplicated and distributed before the initial briefing of the Command and General Staffs or other responders as appropriate. The “Map/Sketch” and “Current and Planned Actions, Strategies, and Tactics” sections (pages 1–2) of the briefing form are given to the Situational Awareness Section Chief, while the “Current Organization” and “Resource Summary” sections (pages 3–4) are given to the Resource Tracking Unit.

Notes:

- The ISM 201 can serve as part of the initial Incident Action Plan (IAP).
- If additional pages are needed for any form page, use a blank ISM 201 and repaginate as needed.
