

Regional Multi-Family Recycling Resources

July 15, 2015

North Central Texas Stewardship Forum Webinar

Sandra Barba

North Central Texas Council of Governments

Planning for Sustainable Materials Management for North Central Texas

- Update to the 2007 Regional Solid Waste Management Plan
- Emphasis on:
 - Materials management, life-cycle considerations consistent with statewide and national goals
 - Waste management hierarchy
 - *Reduce, reuse, and recycling*
 - Focus on specific wastes:
 - Food waste
 - Tires
 - Pharmaceuticals
 - Medical
- **Update** regional waste capacity, population, and source reduction, recycling, composting, energy recovery, and disposal and treatment information

Planning for Sustainable Materials Management for North Central Texas

- Public Meetings July 22, 23, and 27th
- Public Comments accepted until August 7, 2015
- www.nctcog.org/envir/solidwasteplan
- Email comments to EandD@nctcog.org

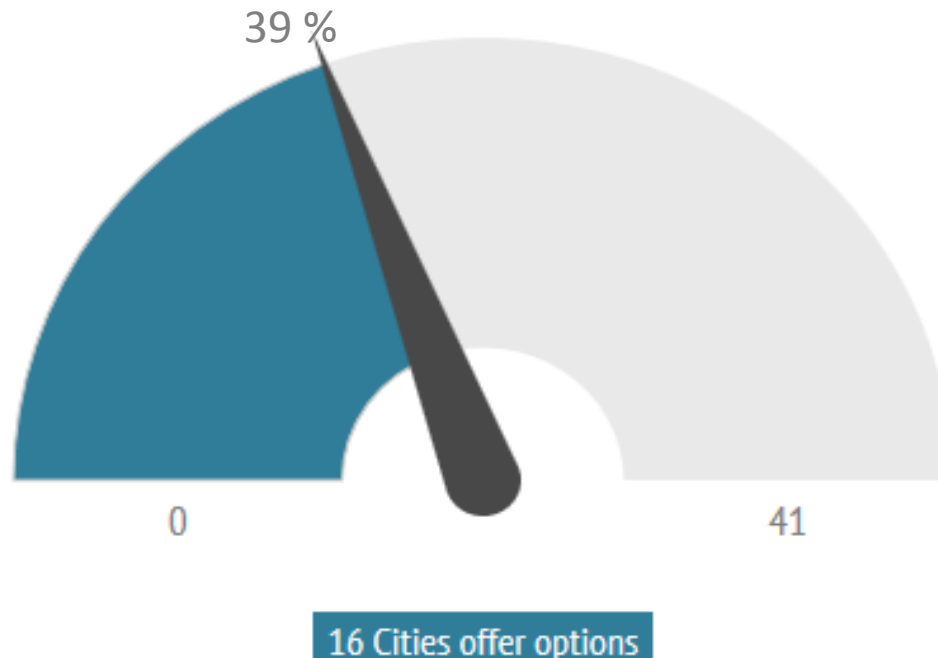

DRAFT NORTH CENTRAL TEXAS
REGIONAL SOLID WASTE MANAGEMENT PLAN

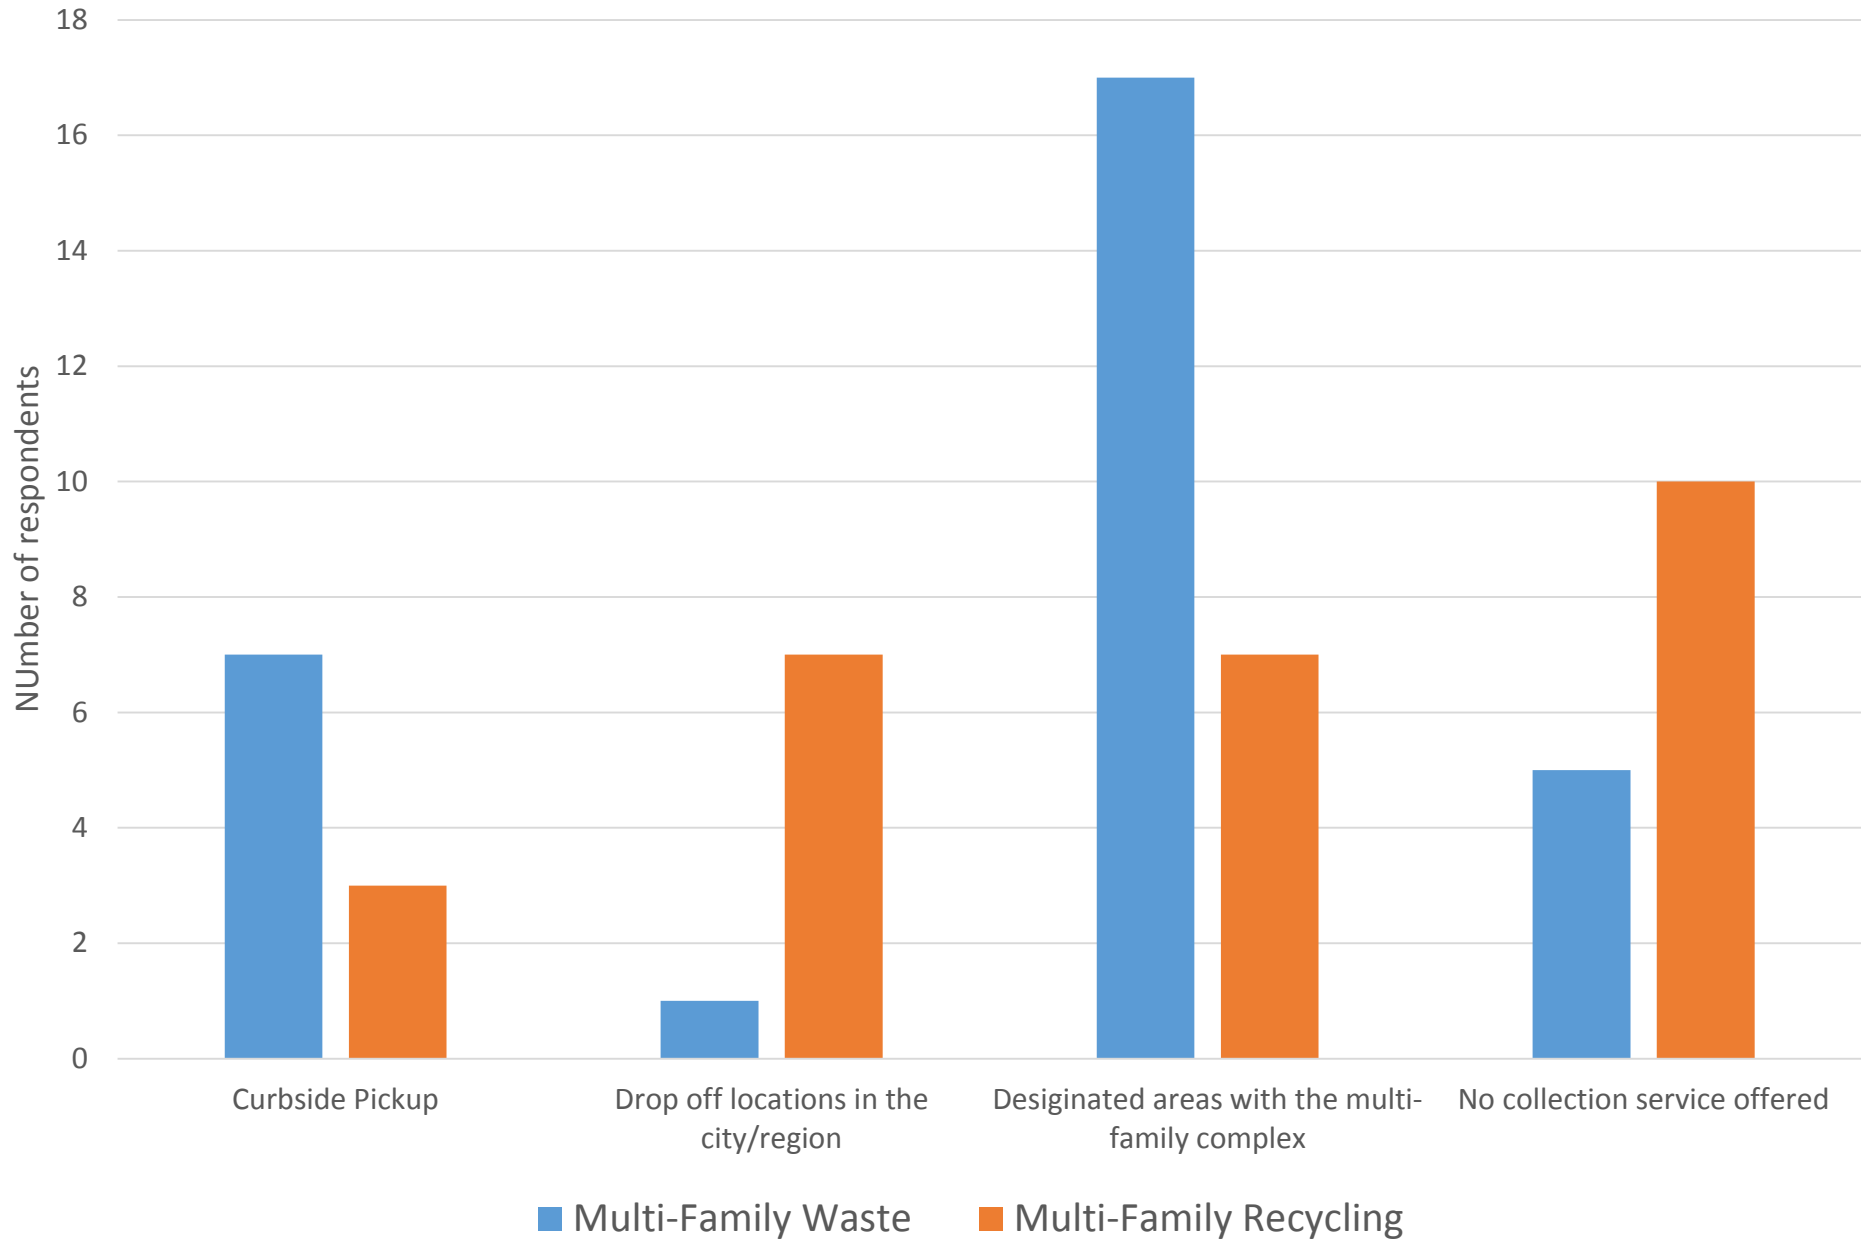

PREPARED BY NORTH CENTRAL TEXAS COUNCIL OF GOVERNMENTS
AUGUST 2015

Number of Cities That Offer Multi-Family Recycling Options in the North Central Texas Region

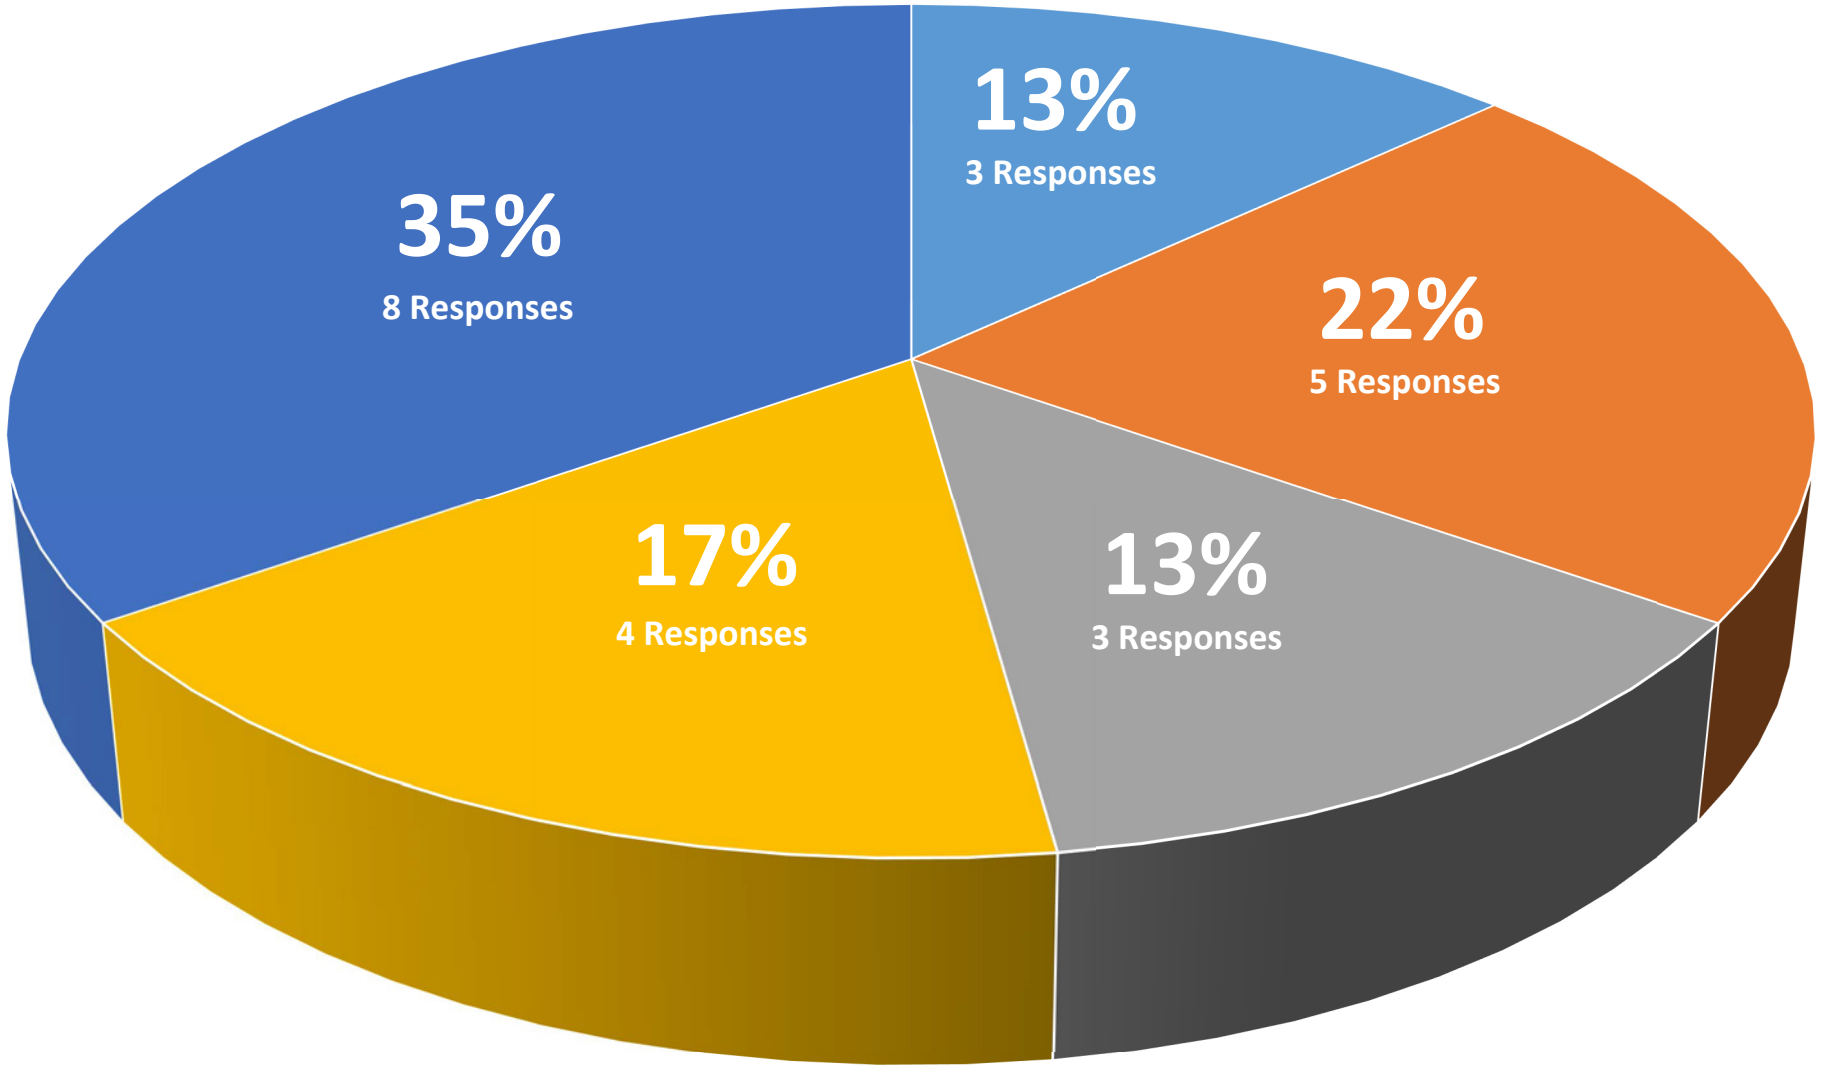

Based on 16 cities responses

Methods of Solid Waste Collection

Based on 16 respondent Cities

Type of Multi-Family Recycling Service

■ Mandatory ■ Franchised ■ On Site ■ Drop-Off ■ Not Applicable

Based on 15 respondent cities

Multi-Family Recycling Resources

[May 2009: Recycling Contract Negotiation Guidebook](#)

- A resource for local governments and private companies regarding residential recyclable materials contracting issues
- Provides sample contract language, selection of recycling contractors, recommendations on procurement processes, contract provisions, etc.

[August 2009: Recycling Ordinances and Building Design Guideline](#)

- A resource for local governments regarding ordinances that can be implemented to enhance recycling efforts
- Provides sample ordinance language
- Can also be resources to real estate developers, and builders for recycling infrastructure that should be considered in the physical design of buildings to accommodate recycling programs.

September 2005: City of Fort Worth Multi-Family Recycling Study

- Describes the City of Fort Worth's multi-family recycling pilot program
- Includes survey results of multi-family residents and managers
- Addresses impediments to multi-family program success; financing of multi-family recycling; multi-family recycling options; and provides recommendations for education and drop-off centers
- Good resource for other cities that have an interest in increasing waste diversion through multi-family recycling programs
